Subject: Support of "Stop Sanctuary Policies and Protect Americans Act"

Dear Senators:

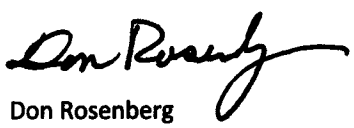
On behalf of my son killed by an illegal alien in San Francisco almost 5 years ago I want to thank you for introducing and advancing the *Stop Sanctuary Policies and Protect Americans Act.* This legislation that will address the reentry of illegal aliens, restrict federal funding of cities that operate as "sanctuary cities", and also support and protect our law enforcement officers is long overdue.

Quite frankly it is hard to believe that in a nation founded on the rule of law this legislation is even necessary. Since my son's death at least 25,000 people have been killed by illegal aliens. Many have been killed by illegal aliens who have been deported multiple times. Many have been killed by illegal aliens who are actually living and being protected by sanctuary cities.

There are over 135,000 convicted illegal alien criminals currently roaming our streets. That number is growing by 1,000 every week as so many of our cities are refusing to honor detainers resulting in convicted illegal alien felons first to be released into the general population and then being protected by sanctuary cities. How many more Americans have to die before our "leaders" put the safety of our citizens above votes and cheap labor?

Nothing I can do will bring my son back to life. But I ask you to do all that is possible to make sure no other American family has to suffer the real separation of families and the never ending nightmare of losing a loved one, I wonder every day why our government has betrayed us and cares more about illegal aliens than law abiding American citizens.

Sincerely,



Don Rosenberg
